📍 Vilnius

## SKILLS

### ● Java

IntelliJ IDEA, Eclipse, Maven

### ● JavaScript

React, Next.js, Express

### ● Databases & Web

MySQL, HTML, CSS

### ● Tools

VS Code, Git, Postman

### ● Language

English, Lithuanian

## INTERESTS

AI tools and agents,  
solving overcomplicated problems,  
volleyball, board games

## OBJECTIVE

Aspiring software developer with hands-on experience in Java, React, and MySQL, seeking a full-time role to grow technical skills and contribute to meaningful projects. Long-term I want to develop expertise in AI technologies.

## PROJECTS

### ● Job board website

JavaScript, React, Express, Next.js

Developing a full-stack job board with dynamic listings, REST API integration, and MySQL database.

### ● Currency converter

Java

Built a UI-based currency converter that scrapes exchange rates using JSoup without relying on APIs.

## EDUCATION

### ● Vilties žiedas

Java Programming Non-Formal  
Vocational Training Program

November 2021 - April 2022

540 hour Java course where I learned to:

- Design and program user interfaces for web pages;
- Apply computer science principles and methods;
- Design, implement and manage standard relational databases;
- Use server operating systems;

## WORK EXPERIENCE

### ● Bolt Ltd.

Courier

May 2025 - Now

Delivered over 50 orders per week, consistently meeting strict deadlines.

### ● Gilrinda Ltd.

Manager

July 2023 - November 2023

Organized employee duties, negotiated commercial offers and working conditions, solved team-related issues.

### ● Savaitgalis šiandien Ltd.

Bartender

July 2022 - March 2023

Provided excellent customer service in high-pressure environments, strengthened communication and team coordination skills.
